Videonetics
Look Deeper

To *look deeper* is to fully understand the complexities of the world around us.

Videonetics
looks deeper to
create a
*Safer. Smarter. Happier.*
world.

By bringing you an AI and DL-powered
video management platform, we empower
your video data to help tackle challenges.

Videonetics
is the market leader
in ingenious solutions
and one of the
fastest growing tech
companies in the
Asia Pacific

#1

VMS
Provider
In India

& Amongst Top 5 in Asia*

A market leader across verticals

300K+
Cameras
Connected

80+

Secured

150+
Cities
Secured

100+
Enterprises
Secured

25K+
Traffic Lanes
Monitored

We keep innovation at the forefront to create cutting-edge, cyber-secured and artificial intelligence powered solutions to help solve Real-world problems.

Smart Cities | Aviation | Power Oil & Gas | Critical Infrastructure | Defence | BFSI | Manufacturing | Education | Hospitality | Retail Transportation | Law Enforcement | Enterprises

Our journey has been defined by key milestones that reflect the sheer dedication and will to simplify intricate challenges

2nd Gen.

Video Management System

AI-Enabled Video Analytics

Artificial Intelligence (AI) and Deep Learning (DL) Framework

World's first AI and DL-Powered Unified Video Management Platform

Traffic Management System

Edge-to-Cloud Intelligence

Face Recognition System

2008

1st Gen.

Video Management System

AI-Enabled Video Analytics

Traffic Management System

Present

3rd Gen.

Video Management System

AI-Enabled Video Analytics

Flexible Business Continuity and Disaster Recovery Framework

Videonetics brings a long-term vision, leveraging its innovative and industry-leading technology that's built ground up.

Our technology is based on a solid foundation of its ground-breaking intellectual property portfolio

Patents from USA, UK, Singapore, Canada and India

**Videonetics
is the world's first
unified platform to
manage and
compute video
data.**

Hardware, OS, Browser and
Database Agnostic

Scalable & Interoperable

ONVIF Compliant - S, T, G, M

Cloud-Ready

Integrated yet Modular

OpenAPI Compliant

Videonetics
Video Management System
Futuristic and secure video management system.

Videonetics
AI-Enabled Video Analytics
Deriving actionable intelligence through data-driven insights.

Videonetics
Traffic Management System
Multifaceted solution for urban traffic challenges.

Videonetics
Face Recognition System
See through faces and details with the power of AI.

Videonetics VSaaS Platform
Cloud-based video management platform.

**Videonetics
Video Management System
(VMS)**

The volume of video data is growing exponentially, by the second. Capturing, storing, computationally distributing it, and ensuring business continuity in case of a disaster, is crucial.
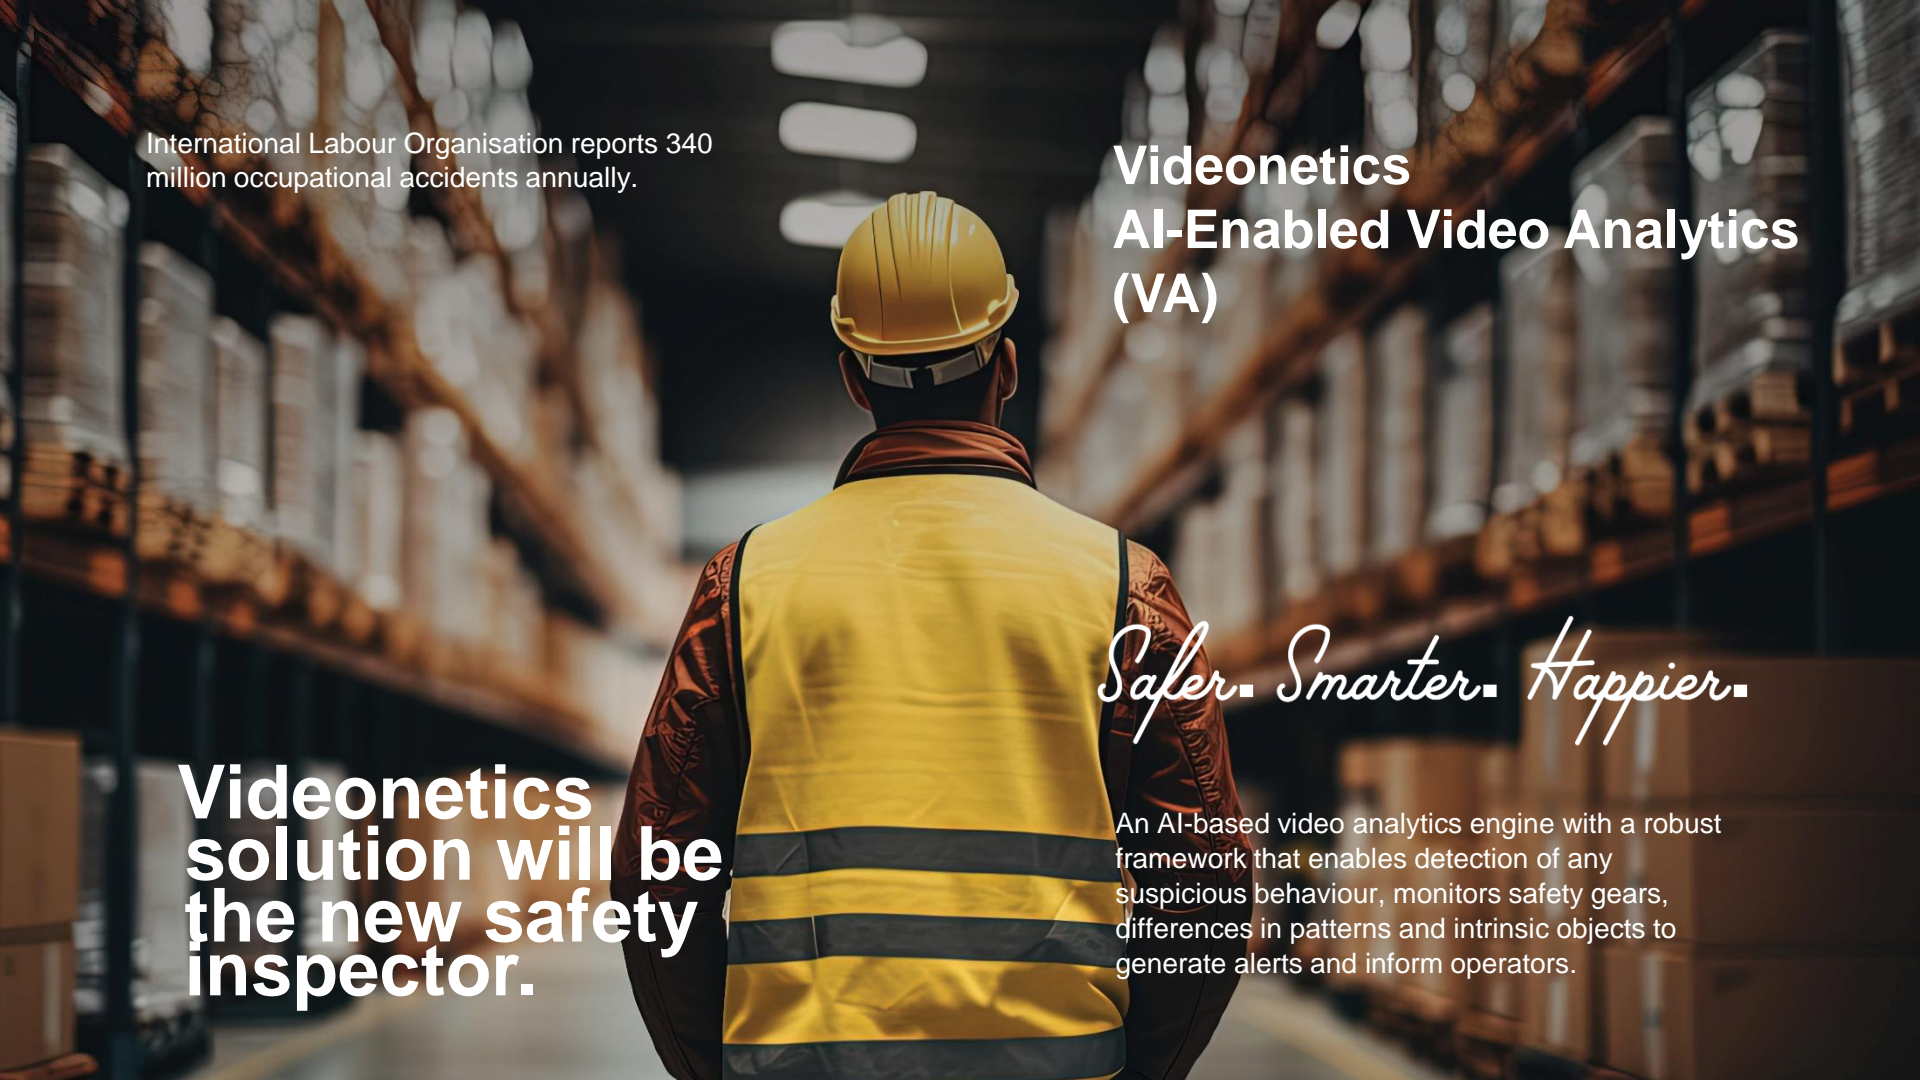

Safer. Smarter. Happier.

Videonetics solution is the most efficient manager.

An indigenous software, designed to tackle everyday challenges with its next-gen, adaptive user interface and military-grade security for any size of deployment across verticals.

International Labour Organisation reports 340 million occupational accidents annually.

Videonetics
AI-Enabled Video Analytics (VA)

Safer. Smarter. Happier.

Videonetics solution will be the new safety inspector.

An AI-based video analytics engine with a robust framework that enables detection of any suspicious behaviour, monitors safety gears, differences in patterns and intrinsic objects to generate alerts and inform operators.

Over 55% of the world's population lives in urban areas. Road traffic problems are on the rise.

Videonetics Traffic Management System (TMS)

Safer. Smarter. Happier.

Videonetics solution optimises traffic

Empowering traffic law enforcement authorities and planners with AI-powered solutions to overcome traffic-related challenges with utmost precision and efficiency while ensuring public safety.

7 out of 10 governments use facial recognition technology.

Videonetics
Face Recognition System
(FRS)

Safer. Smarter. Happier.

Videonetics
solution knows
the persons
of interest.

Trained with more than 1 billion faces, our face
recognition software is unbiased to geography or
various facial attributes, making it the best face
recognition software applicable across the
diverse world population.

Leveraging cloud computing technology enhances
surveillance systems' capabilities and flexibility

Videonetics VSaaS Platform

Videonetics cloud solution revolutionises surveillance

Safer. Smarter. Happier.

A cloud-based video management platform that enables communications service providers, data centre providers and system integrators to build and sell their own cloud-based video surveillance solutions.

The future of video computing. It begins with our solutions

Our expertise and knowledge across a wide range of verticals enable us to look deeper and develop bespoke solutions in people management, safety compliance, disaster management, threat detections, cybersecurity, surveillance, coordination, professional support and consultancy

We look deeper to simplify the world.
Making it

Safer. Smarter. Happier.
