We help you make sense of surveillance, with the world's first AI & DL powered Unified Video Computing Platform™

It is a platform that is open and flexible

- Integrated yet modular
- Scalable & interoperable
- OS/ Browser/ Relational database agnostic
- Hardware agnostic
- Open platform
- ONVIF compliant - S, G, T, Q
- Cloud-ready

Our platform provides you with an end-to-end solution for a wide range of applications

Intelligent VMS

AI & DL Powered Video Analytics

Intelligent Traffic Management System

Facial Recognition

Video Command & Control Centre

VCPaaS™
Video Computing Platform as a Service™

A pioneer in video computing and a technology leader

BREAKTHROUGH TECHNOLOGIES:

DeeperLook™

VCPaaS™
VIDEO COMPUTING PLATFORM AS A SERVICE

Sixel™

AI & DL powered Video Analytics with a single framework core and scalability

End-to-end video management & surveillance, as a subscription-based service

Technology to unify multiple sensory inputs for an unmatched level of rich, actionable intelligence

FOCUS ON INTELLECTUAL PROPERTY: Patents granted in the US, UK, Israel, Singapore, Canada and India
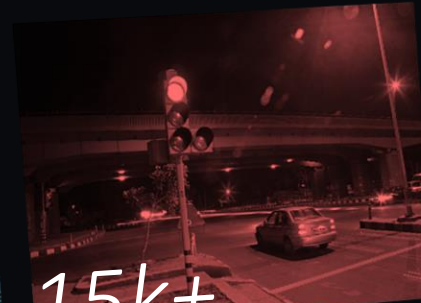

Market leader across verticals
